for decades engelhardt has alluded to the ethics that binds moral friends while his foundations of bioethics explored the sparse ethics binding moral strangers this long awaited volume addresses the morality at the foundations of christian bioethics the volume opens with an analysis of the marginalization of christian bioethics in the 1970s and the irremedial shortcomings of secular ethics in general drawing on the christianity of the first millennium engelhardt provides the ontological and epistemological foundations for a christian bioethics that can remedy the onesidedness of a secular bioethics and supply the bases for a christian bioethics the volume then addresses issues from abortion third party assisted reproduction and cloning to withholding and withdrawing treatment physician assisted suicide and euthanasia practices such as free and informed consent are relocated within a traditional christian morality attention is also given to the allocation of scarce resources in health care and to the challenge of maintaining the christian identity of physicians nurses patients and health care institutions in a culture that is now post christian

at the roots of christian bioethics explores professor h tristram engelhardt jr s pursuit for the decisive ground of the meaning of human existence and knowledge of appropriate moral choice engelhardt has been the most influential cogent but critical voice within bioethics of the past several decades the essays in this volume compass epistemological methodological and topical contributions to bioethics political theory and christian theology each explores engelhardt s diagnosis of the contemporary social and cultural crisis seeking to make sense of the decidedly post christian and often openly anti christian ethics that dominates public morality and politic policy each author investigates engelhardt s personal and tireless enquiry to secure ultimate moral foundations as well as to recognize the full implications of the results of his investigations that christian bioethics does not originate in human reason but in the command of god

amid continuing advances in medical research and treatment gilbert meilaender s bioethics has long provided thoughtful guidance on many of society s most difficult moral problems including abortion assisted reproduction genetic experimentation euthanasia and much more in this fourth edition meilaender updates much of the data referenced in the book and responds directly to recent developments such as the crispr cas9 method of gene editing christians seeking discernment in this new decade will appreciate meilaender s circumspect writing and his ability to address the nuances of each issue while maintaining strong and clearly stated moral convictions

euthanasia and patristic tradition presents secular and christian bioethics as opposing forces in dialogue highlights the importance of the christian patristic tradition in revealing disguised characteristics of bioethics in our era and challenges the idea of individualism in modern societies through the development of a christian individualism while the book is focussed on euthanasia it also offers important perspectives on other ethical dilemmas ioannis bekos applies panagiotis kondylis s theory for the emergence of worldviews as a function of power where all ethical theories have been proved to be subjective bringing together bioethical theories and just war theory he exposes the disguised power claims of modern bioethics over human existence then through an account of the history of thought society and politics of the twentieth and twenty first centuries bekos delivers a profound critique of the idea of common morality popular theories such as principlism and contractualism ethicists like peter singer and philosophers like habermas using the works of st john damascene and st symeon the new theologian bekos shows the fundamental elements of a christian anthropology regarding the constitution of man the character of pain and death and the importance of the free will in man offering a critique of modern bioethics

scientific breakthroughs extremely useful to students scholars and general readers alike these volumes are ideal for classroom use in nontheological as well as theological settings this excellent text offers a broad based introduction to the field of bioethics scott rae and paul cox provide an assessment of various secular approaches to bioethics that are particularly influential today and develop a framework for a christian approach meant to assist people in addressing the many pressing issues in the field though touching on the numerous debated issues in bioethics the authors are primarily concerned here to give an account of the central theological notions crucial to an informed christian perspective on bioethics their work makes a stimulating and substantial contribution to a christian bioethic that can effectively engage the pluralistic culture in which health care is practiced today

a biblically informed guidebook for christians facing difficult health care decisions from the making of life infertility organ donation cloning and taking of life abortion euthanasia to the technologically driven faking of life genetic engineering etc

in the face of continuing advances in medical research and treatment bioethics remains a serious ongoing social concern for nearly two decades gilbert meilaender's bioethics has offered discerning christian guidance on a wide range of pressing issues in medical ethics now in its third edition meilaender's bioethics covers abortion assisted reproduction genetic research suicide and euthanasia human experimentation and much more in language that is theologically informed straightforward and clear this new edition includes updated information throughout and an added discussion of the need to protect christian conscience in the practice of medicine

although a proper concern for health is compatible with christian faith recent and anticipated advances in extending human longevity are often based on philosophical presuppositions and religious values that are adverse to core christian beliefs and convictions in this solid text theologian and ethicist brent waters reflects on the formation practice and meaning of the christian moral life in light of selected bioethical issues theologically grounding his reflections on the doctrine of the incarnation waters considers issues such as biotechnology and physical cognitive enhancement reproductive technology human genetics embryonic stem cell research and regenerative medicine he also examines the posthuman project exploring what it means to be human in light of the denial of mortality

this stimulating and wide ranging book mounts a profound enquiry into some of the most pressing questions of our age by examining the relationship between biological science and christianity the history of biological discovery is explored from the point of view of a leading philosopher and ethicist what effect should modern biological theory and practice have on christian understanding of ethics how much of that theory and practice should christians endorse can christians for example agree that biological changes are not governed by transcendent values or that there are no clear or essential boundaries between species to what extent can nature set our standards professor clark takes a reasoned look at biological theory since darwin and argues that an orthodox christian philosophy is better able to accommodate the truth of such theory than is the sort of progressive meliorist interpretation of christian

doctrine which is usually offered as the properly modern option

this book was published in 1914 introduction a plea for the study of christian ethics the nature and scope of ethics the postulates of christian ethics ethical thought before christ the estimate of man the witness of conscience the miracle of the will modern theories of life the christian ideal standard and motive the dynamic of the new life virtues and virtue the realm of duty social institutions conclusion the permanence of christian ethics

this systematic and comprehensive introduction to theological bioethics will help readers discern the theological issues inherent in life and death bioethical decisions by discussing four central moral principles of medical ethics wheeler gives lay christian health care providers guidance in reflecting on the theological dimensions of their work and helps ministers understand their role in counseling families faced with such decisions

robin gill s textbook of christian ethics has been a popular course book with students and lecturers for over 20 years now in its third edition this classic textbook has been completely revised to bring it up to date with recent developments in the field of christian ethics all the popular features of the previous editions have been retained in this new edition the book s main strength has always been its layout and structure integrating primary texts with explanatory material from the author the book provides the student with a reader and textbook combined the new edition focuses more strongly on current debates in all sections and expands on a variety of topics with contributions on natural law approaches virtue ethics in a pluralistic postmodern world the influential notion of the common good just war theory genetics and biotechnology euthanasia and global justice and sex and gender issues important modern contributions to christian ethics are set out alongside classical texts from augustine aquinas and luther the modern writers range from thinkers such as niebuhr barth and bonhoeffer to recent liberation and third world theologians each series of texts is systematically analysed the differing ethical positions and arguments are examined together with the social and historical factors which shaped them

an intelligent discussion of the foundations and methods in ethics and ways to apply a christian worldview to our secular culture

this book addresses such key ethical issues as euthanasia the environment biotechnology abortion the family sexual ethics and the distribution of health care resources michael banner argues that the task of christian ethics is to understand the world and humankind in the light of the credal affirmations of the christian faith and to explicate this understanding in its significance for human action through a critical engagement with the concerns claims and problems of other ethics he illustrates both the distinctiveness of christian convictions in relation to the above issues and also the critical dialogue with practices based on other convictions which this sense of distinctiveness motivates but does not prevent the book s importance lies in its attempt to show the crucial difference which christian belief makes to an understanding of these issues whilst at the same time demonstrating some of the weaknesses and

confusions of certain popular approaches to them

a college text with discussion questions and readings that analyzes all the foundational problems of christian ethics as aspects of the human effort to love others

how can christian ethics make a significant contribution to health care ethics in today s western pluralistic society robin gill examines the moral gaps in secular accounts of health care ethics and the tensions within specifically theological accounts he explores the healing stories in the synoptic gospels identifying four core virtues present within them compassion care faith and humility that might bring greater depth to a purely secular interpretation of health care ethics each of these virtues is examined in turn using a range of topical issues including health care rationing genetics hiv aids withholding withdrawing nutrition from pvs patients and the empirical evidence which suggests a connection between religion and health professor gill also argues that these four virtues are shared by other major religious and humanistic traditions and that together with secular principles they can enrich health care ethics even in a pluralistic society

a new thoroughly revised edition of the classic textbook for the student of christian ethics setting out important contributions from modern theologians alongside classical texts from augustine aquinas and luther
